THE REVOLUTIONARY HYBRID TELEPHONE SYSTEM FOR SMALL BUSINESS

THE PHONE SYSTEM FOR OFFICES WITH 1 TO 32 PHONE USERS

SMALL BUSINESS

MULTI-BRANCH BUSINESS

HOME-BASED BUSINESS

TalkSwitch

We built TalkSwitch® on an idea so simple it's revolutionary; that small businesses deserve telephone systems that are as sophisticated and as powerful as big business systems, but without the big business prices.

TalkSwitch delivers. It packs an amazing range of features into one compact, easy-to-use package, including built-in auto attendants, voicemail, and powerful remote extension capabilities.

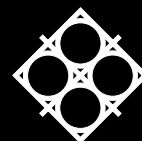

INTRODUCING THE TALKSWITCH 48-CVA

Voice over IP technology that small business can afford? Meet the hybrid TalkSwitch 48-CVA. The latest addition to the award-winning TalkSwitch family, it combines access to traditional and Internet-based networks. Businesses with multiple locations can take advantage of VoIP cost savings while maintaining their existing telephone service, and without buying expensive IP-enabled

telephone sets. With rich features and hybrid IP/traditional telephony at a price that fits small business budgets, the TalkSwitch 48-CVA is a revolution in small business phone systems.
